Address: Bulevardi I Ri

PROFILE

- A results-driven Computer Science graduate combining strong software engineering principles with practical expertise in DevOps, Linux systems, and containerization. Passionate about rapid prototyping, building scalable solutions, and collaborating in fast-paced technical environments to solve real-world problems.

PORTFOLIO

Digital Product & Development Portfolio — [Insert Your Link Here]

- A curated collection of technical projects, containerized deployments, and user interface designs demonstrating full-stack problem-solving and rapid prototyping.

Certifications & Workshops

Multimedia Design Workshop | POLIS University & University of Western Macedonia

- Participated in an international joint workshop focused on digital design frameworks and visual communication.
- Applied user-centric design principles to enhance the presentation, layout, and frontend user experience (UX) of digital products.

EDUCATION

Polis University | 2022-2025 Bachelor's

Degree in Computer Science

ICT Professional High School Diploma | 2018-2022

Hermann Gmeiner Professional TIC High School

SKILLS

Programming & Web Development

- Languages: JavaScript, HTML, CSS, SQL.

Systems & DevOps

- Operating Systems: Linux Administration (Ubuntu/Debian), Bash Scripting.
- Containerization: Docker (Image creation, Container management).
